Blueprint® 20 AN CNDN

Product #61467

Feeding Applications

Free choice supplement block for all classes of beef cattle.

Product Features

Blueprint 20 AN LMB contains 20% crude protein from all vegetable based ingredients. It is designed to be fed to beef cattle on good to medium quality forages to help improve forage utilization. Blueprint 20 AN is uniquely fortified with all highly bioavailable organic trace minerals and contains no inorganic trace mineral forms. [The Blueprint product line](#) is intended to provide optimal trace mineral nutrition to meet today's advanced animal genetic demands while protecting the environment from unnecessary over supply of less available forms.

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake. Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization.

Relocation: Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 20-30 head. Cattle typically consume between 180 and 340 grams per head daily.

Monitoring: Free-choice consumption will depend on size of the animals fed, seasonal weather conditions, as well as quality, source and availability of other feeds.
