Blueprint® 20 AN with Bio-Mos® 2

Product #60426

Feeding Applications

For Beef Cattle on Pasture.

Product Features

Blueprint 20 AN with Bio-Mos 2 contains 20% crude protein from all vegetable based ingredients. Contains Bio-Mos 2 to support overall performance. Bio-Mos 2 is designed to feed the gastrointestinal tract, thereby maximizing performance and profitability.

- Intended to provide supplemental protein, vitamins and minerals to beef cattle consuming good- to moderate-quality (7–11% crude protein) forages
- Protein sourced entirely from vegetable-based ingredients
- Uniquely fortified with all highly bioavailable trace minerals, and contains no inorganic trace mineral forms
- Contains Bio-Mos 2 at the recommended rate of inclusion, optimizing the health and development of the animal's gut and improving overall animal performance

Benefits of Bio-Mos 2:

- Promotes performance at all stages
- Supports colostrum quality and newborn calf performance
- Contributes to gastrointestinal integrity and stability to aid in nutrient utilization
- Supports average daily gain
- Reinforces the health status of receiving cattle in the feedlot
- Supports economic returns

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 20-30 head. Cattle typically consume between 0.4 and 0.75 pounds per head per day.

Monitoring: Self-fed consumption will depend on size of the animals fed, seasonal weather conditions, as well as quality, source and availability of other feeds.
