Blueprint® 6% Phos Mineral GAR

Product #70213

Feeding Applications

For beef cattle on pasture

Product Features

Blueprint 6% Phos Mineral GAR is a highly palatable mineral supplement that is ideal for cattle of all production statuses on good to excellent quality forages. Added garlic fly repellent, GAR, will help repel flies as cattle graze.

- A highly palatable mineral supplement, ideal for cattle grazing good-quality forages
- This premium mineral package provides essential macrominerals alongside the Blueprint advanced nutritional program, which features 100% Bioplex® organic trace minerals
- The consistent intake and palatability provided by Crystalyx® makes it an excellent vehicle to deliver garlic to your cattle to help repel flies and ticks
- A study in Saskatchewan discovered cow-calf pairs which received garlic had 52-56% less flies on average than 2 control groups during the summer months

Ingredients

Molasses products, monocalcium phosphate, dicalcium phosphate, magnesium oxide, calcium carbonate, vegetable oil, natural flavor, zinc proteinate, copper proteinate, manganese proteinate, processed grain by-products, roughage products, cobalt proteinate, brewer's dried yeast, ethylenediamine dihydroiodide, selenium yeast, vitamin E supplement, vitamin A supplement, vitamin D3 supplement and mineral oil.

Magnesium (min)	3.5%
Potassium (min)	1.7%
Vitamin A (min)	200000 IU/lb
Vitamin D3 (min)	20000 IU/lb
Vitamin E (min)	200 IU/lb
Cobalt (min)	72 ppm
Copper (min)	675 ppm
Iodine (min)	90 ppm
Manganese (min)	945 ppm
Selenium (min)	13.2 ppm
Zinc (min)	1980 ppm

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 40-75 head. Cattle may consume from 2 to 8 ounces per head per day. Cattle should typically consume 4 ounces per head per day.

Monitoring: Self-fed consumption will depend on size of the animals fed, seasonal weather conditions, as well as quality, source and availability of other feeds. Manage the number of animals per container to achieve a 4 ounce intake per head per day.

Additional Feeding Information

CRYSTALYX Blueprint 6% Phos Mineral GAR supplement is designed for self-feeding to grazing beef cattle. Use as a source of calcium, phosphorus, vitamins and trace minerals when forage crude protein is not limiting. This product does not provide enough supplemental magnesium to aid in the prevention of grass tetany.

ALL CONSUMPTION FIGURES STATED HERE ARE APPROXIMATE. PROVIDE FREE ACCESS TO CLEAN, FRESH WATER AT ALL TIMES. CRYSTALYX BLUEPRINT 6% PHOS MINERAL GAR SUPPLEMENT CONTAINS NO SALT. PROVIDE SALT FREE CHOICE.

CAUTION: USE ONLY AS DIRECTED. Consumption of selenium should not exceed 3 mg per head daily.

WARNING: This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.

NOTE: CRYSTALYX Brand Supplements deliver a continuous supply of nutrients and are designed as a supplement to the animal's diet. When quantity or quality of other feedstuffs is limited, supplemental nutrients in addition to those provided by CRYSTALYX Brand Supplements may be required. In situations where additional nutrients are needed, contact your feed representative for specific recommendations.
