Blueprint B-lyx™ CNDN

Product #234B

Feeding Applications

Blueprint B-lyx is designed for self-feeding to lactating dairy cows.

Product Features

- BIOPLEX chelated/organic trace minerals are better able to meet the nutrient requirements of high producing cows
- Naturally self limiting, low moisture block delivery cannot be bitten or chewed
- B vitamins help to stimulate intake
- Trace mineral and vitamin nutrition available 24/7
- Added bicarbonate promotes improved rumen buffering, thus reducing acidosis and related lameness problems in cows experiencing SARA (research published and patented)
- Ideal for lactating dairy cows

BIOPLEX is a registered trademark of [Alltech](#)

Nutrition Information

Crude Fat (min)	3%
Crude Fiber (max)	2%

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: CRYSTALYX Blueprint B-lyx is designed for self-feeding to lactating dairy cows.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 20 - 30 head. Cattle typically consume between 110 and 340 grams per head per day.

Monitoring: Free-choice consumption will depend on size of the animals fed, seasonal weather conditions, as well as quality, source and availability of other feeds.
