Blueprint Close-Up® Formula CNDN

Product #2931

Feeding Applications

Dairy Cattle - Dry cows (three weeks prior to calving).

Product Features

- BIOPLEX® chelated/organic trace minerals are better able to meet the nutrient requirements of high producing cows
- Naturally self-limiting, low moisture block delivery cannot be bitten or chewed
- Anionic salts to assist with improved calcium status
- Trace mineral and vitamin nutrition available 24/7
- Ideal for dairy cows 3 weeks prior calving
- Can help improve dry matter intake in the dry period which can improve energy status at calving and help prevent metabolic issues

BIOPLEX® is a registered trademark of [Alltech](#)

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: CRYSTALYX Blueprint Close-Up Formula block supplement is designed for self-feeding during the last 3 weeks of the dry period.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 20-30 head. Dry cows typically consume between 140 and 450 grams per head daily.

Monitoring: Free-choice consumption will depend on the size of the animals fed, as well as source and availability of other feeds.
