Blueprint® Dry Cow® Formula

Product #2992

Feeding Applications

For non-lactating dairy cattle

Product Features

CRYSTALYX Blueprint Dry Cow Formula is a self-fed supplement designed for use in addition to a balanced ration for dry cows.

- Intended to be fed only during the dry period (typically 30–60 days prior to calving) along with a long-stem, low-calcium forage
- Continue feeding until freshening or until cows are switched to Crystalyx® Blueprint® Close-Up Formula or Crystalyx® Blueprint® Transition Stress Formula
- Fortified with vitamins, minerals and 100% Bioplex organic trace minerals to aid in reducing metabolic disorders and subsequent re-breeding problems

Ingredients

Molasses products, processed grain by-products, magnesium oxide, monocalcium phosphate, dicalcium phosphate, calcium carbonate, hydrolyzed vegetable oil, urea, roughage products, zinc proteinate, vitamin E supplement, copper proteinate, manganese proteinate, plant protein products, selenium yeast, cobalt proteinate, ethylenediamine dihydroiodide, vitamin A supplement, vitamin D-3 supplement, mineral oil.

Nutrition Information

Crude Protein (min)	15%
Crude Fat (min)	3%
Crude Fiber (max)	2%
Calcium	1.5% - 2%
Phosphorus (min)	1%
Magnesium (min)	2.5%
Vitamin A (min)	200000 IU/lb
Vitamin D3 (min)	40000 IU/lb
Vitamin E (min)	1000 IU/lb
Cobalt (min)	36 ppm
Copper (min)	336 ppm
Iodine (min)	45 ppm
Manganese (min)	472 ppm
Selenium (min)	11.8 ppm
Zinc (min)	990 ppm

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: Feed at the rate of one container for every 20–30 head.

Accessibility: A minimum of two (2) containers may be necessary in each lot or pasture to ensure proper accessibility.

Quantity: Cattle typically consume between 0.2 and 0.6 pounds per head per day.

Monitoring: Self-fed consumption will depend on size of the animals fed, seasonal weather conditions, as well as the quality, source, and availability of other feeds.

Additional Feeding Information

CRYSTALYX BLUEPRINT DRY COW FORMULA supplement is designed to be fed only during the dry period, which is typically 30-60 days in length prior to calving. CRYSTALYX BLUEPRINT Dry Cow Formula should be fed along with a long-stem, low calcium forage. Continue feeding until freshening or until cows are switched to CRYSTALYX BLUEPRINT Close-Up Formula or CRYSTALYX BLUEPRINT Transition Stress Formula.

ALL CONSUMPTION FIGURES STATED HERE ARE APPROXIMATE. PROVIDE FREE ACCESS TO FRESH, CLEAN WATER AT ALL TIMES. CRYSTALYX BLUEPRINT DRY COW FORMULA CONTAINS NO SALT. LIMIT SALT INTAKE TO APPROXIMATELY ONE (1) OUNCE PER HEAD PER DAY.

CAUTION: USE ONLY AS DIRECTED. FOR RUMINANTS ONLY. Feeding added selenium in excess of 0.3 ppm in the total diet is prohibited.

WARNING: This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.

WARNING: For Jersey Dairy cattle, which are known to be sensitive to copper toxicity, consider all sources of dietary copper in the complete diet. Supplemental copper sources and/or ingredient levels may need to be modified in these animal feeding situations.

NOTE: CRYSTALYX Brand Supplements deliver a continuous supply of nutrients and are designed as a supplement to the animal's diet. When quantity or quality of other feedstuffs is limited, supplemental nutrients in addition to those provided by CRYSTALYX Brand Supplements may be required. In situations where additional nutrients are needed, contact your feed representative for specific recommendations.
