Crystal-Phos® 8 CNDN

Product #7730

Feeding Applications

Beef Cattle - (spring and summer pastures and fall re-growth).

Product Features

- Highly palatable to encourage consistent consumption of minerals and vitamins under self-fed grazing conditions
- Provides uniform intake of unpalatable mineral/vitamin ingredients and dependable nutrient delivery in high alkaline/saline pastures
- Naturally self-limiting, low moisture block delivery cannot be bitten or chewed
- Ideally fortified and suited for early season, mid summer and fall pastures when grass tetany is not a concern
- Contains BIOPLEX organic trace minerals that provide mineral nutrition in a form as close to nature as possible

BIOPLEX® is a registered trademark of [Alltech](#)

Nutrition Information

Calcium	7.5% - —
Phosphorus (min)	8%
Magnesium (min)	2.5%
Vitamin A (min)	440000 IU/kg
Vitamin D3 (min)	44000 IU/kg
Vitamin E (min)	440 IU/kg
Cobalt (min)	30 mg/kg
Copper (min)	1000 mg/kg
Iodine (min)	50 mg/kg
Manganese (min)	4000 mg/kg
Selenium (min)	13.2 mg/kg
Zinc (min)	3000 mg/kg

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake.

Relocation: Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization.

Accessibility: A minimum of two (2) containers may be necessary in each pasture to ensure proper accessibility.

Quantity: Feed at the rate of one container for every 40-75 head of mature animals. Cattle may consume from 50 to 230 grams per head per day. Cattle should typically consume 110 grams per head per day.

Monitoring: Self-fed consumption will depend on the number of animals per container, the size of the animals, seasonal weather conditions, as well as quality, source and availability of other feeds. Manage the number of animals per container to achieve a 110 grams intake per head per day.

Additional Feeding Information

CRYSTALYX Crystal-Phos 8 mineral supplement is designed for self-feeding to grazing beef cattle. Use as a source of calcium, phosphorus, vitamins and trace minerals when forage crude protein is not limiting. This product does not provide enough supplemental magnesium to aid in the prevention of grass tetany.

ALL CONSUMPTION FIGURES STATED HERE ARE APPROXIMATE. PROVIDE FREE ACCESS TO CLEAN, FRESH WATER AT ALL TIMES. CRYSTALYX CRYSTAL-PHOS 8 MINERAL SUPPLEMENT CONTAINS NO SALT. PROVIDE SALT FREE CHOICE.
