HE-20%® CNDN

Product #3915

Feeding Applications

Beef Cattle - (moderate quality forages) calves, steers, heifers and cows.

Product Features

- Rumen-available protein (in the form of amino acids, peptides and urea) helps to maximize forage digestion and optimize rumen fermentation
- Naturally self-limiting, low-moisture block delivery cannot be bitten or chewed
- Trace mineral and vitamin nutrition available 24/7
- Highly palatable to consistently encourage consumption of minerals and vitamins under self-fed grazing conditions
- Ideal for beef cattle (calves, steers, heifers, cows) receiving moderate quality forage

Usage Guidelines

Placement: Place containers in areas that achieve desired supplement intake

Relocation: Once acceptable intake levels have been achieved, containers may be moved to underutilized pasture areas

Accessibility: A minimum of two containers may be necessary in each lot or pasture

Quantity: Feed at the rate of one container for every 20-30 head

Monitoring: Self-fed consumption will depend on size of animals, seasonal weather conditions, and quality of other feeds. Cattle typically consume between 225 and 454 grams per head per day.
